Social Return on Investment

WHAT IS SROI?

Social Return on Investment reporting allows us to consider the impact of activities by measuring the value of outcomes in a way that is relevant to the individuals and/or organisations involved. In turn, we are then able to use financial proxies to demonstrate a comparable monetary value.

SROI PRINCIPLES

Further details on these principles can be found at:
www.theSROInetwork.org

OUR SERVICE

We are pleased to offer a service that uses the principles of SROI to support your organisation in the development of either a Forecast SROI report (looking forward as you plan your project) or an Evaluative SROI report (looking back as you evaluate your outcomes).

WHAT WE REQUIRE FROM YOU

- Meet with us to introduce us to your project and provide us with initial data
- Co-ordinate focus groups with relevant stakeholders
- Give us access to all of the necessary quantitative/qualitative data we might require

WHAT WE WILL DO

- Meet with you to ascertain whether SROI reporting is appropriate for your project
- Support your collection of data
- Facilitate focus groups with stakeholders
- Analyse all of the appropriate data
- Provide you with 25 copies and a pdf version of your SROI report

COST

£450*

*This is the cost of an average report, based on a discreet project, taking 3 days at £150 per day. More extensive/complex projects may take longer and thus incur a higher cost

For more information contact Eppie on 0300 303 8558
